MET City – A SUSTAINABLE SMART CITY: GREEN POLICY

Model Economic Township Limited (METL) or MET City is an Integrated Smart City committed to develop it as a leading Sustainable Smart City of India through a robust green policy where:

- i. METL encourages Green Built Environment by encouraging respective unit holders to construct green buildings and seek relevant Green Building certifications.
- ii. METL encourages Urban Heat Island Mitigation by recommending all new buildings or factories to cover up to 75% exposed roof area with high SRI (Solar Reflective Index) materials and also to adopt other measures like tree shading, light color pavements for hardscape areas to reduce the microclimatic temperature.
- iii. METL encourages units for the mandatory installation of Rooftop Solar Photovoltaic Power Plant for the buildings/ areas in accordance with the order bearing no. 22/52/2005-5 Power, dated 21st March 2016 notified by Renewable Energy Department, Haryana as well as Sales Circular S.C No. 09/2017 Dated. 15.02.2017.
- iv. METL encourages all units to comply with the mandatory provision for Energy Conservation Building Codes (ECBC) applicable on buildings/areas in accordance to the to the direction no. 19/6/2016-5P, dated 31st March 2016 notified by Renewable Energy Department, Haryana and as amended from time to time.
- v. METL encourages all unit holders to develop at least 10-15% of green within their plot areas.
- vi. METL encourages all its units to segregate domestic waste, e-waste and bio-degradable products for their disposal appropriately.
